## keep the kids happy

### diorama

#### materials needed:

- Cardboard box, around 25cm long and 20cm wide
- Coloured pencils, crayons, textas or paints
- Glue
- Scissors

#### how to make a diorama:

- Find a cardboard box about 25cm long and 20cm wide.
- Stand the box on its side so you can see in the opening. Pick a background scene from the print outs and colour it in.
- Once you've coloured in your scene, glue it on the inside of the box opposite the opening.
- Colour in the Playland characters. Cut them out (you might need an adults help with this) and fold back the tabs along the dotted lines.

Put on a play for your family and friends, or just have fun with your diorama by yourself! What adventures could you have?
