keep the kids happy

door hangers

materials needed:

- Coloured pencils, crayons, textas or paints
- Glue
- Scissors

how to make a diorama:

- Choose the door hanger you'd like to make from the print outs.
- Colour it in and cut it out (you might need an adult's help with this). To cut out the hole in the centre, cut down the line and the top and very carefully cut around the circle.
- Glue the backs of each side, then glue together, making sure the edges are lined up.
- Let the glue dry, then hang it from your bedroom door. Swap the sides whenever you want!
