

activities

keep the kids happy

photo frame

materials needed:

- A 5" x 7" photo you like
- Coloured pencils, crayons, textas or paints
- Sticky tape
- Scissors
- An adult to help

how to make a diorama:

- Pick a scene from the print outs and colour it in.
- Get an adult to cut out the centre of the frame. They can do this using a pen knife, or piercing a hole in the paper then cutting through this.
- Turn the scene to face coloured side down, then get your photo and lay it on top of the hole, so the back faces you. Tape it on each side, then turn it around to see your masterpiece.

Where could you hang your photoframe? On your wall or on the fridge? It also makes a great present for the ones you love!
